

## **Press Release**

### **EnergyHub Enters into License with SIPCO**

(ATLANTA, GA – November 8, 2012) - SIPCO, LLC is pleased to announce that EnergyHub, Inc., a worldwide leader in home energy management technology, has taken a license to SIPCO's Essential Wireless Mesh™ Patent Portfolio.

###

#### **About SIPCO, LLC**

SIPCO is a leading innovator of mesh networking and related technology based in Atlanta, Georgia. Founded by renowned inventor T. David Petite, SIPCO LLC developed technologies enabling robust self-organizing wireless networking and related technologies known as Wireless Mesh in conjunction with Intus<sup>IQ</sup>. Wireless Mesh is used in protocols such as ZigBee, Z-Wave, IEEE 802.15.4, WirelessHART and proprietary mesh network and in other wireless applications such as SmartGrid, building automation, industrial controls, network backhaul, smart vehicles, home appliances, home automation and entertainment, sensor monitoring, healthcare monitoring and Internet service provisioning. SIPCO licenses its technology through world patent licensing leader MPEG LA. For more information, please refer to <http://www.sipcollc.com/> and <http://www.mpegla.com/main/programs/wirelessmesh/Pages/Intro.aspx>.
